Gentlemen:

We respectfully request a supplemental allowable of 30 barrels for the month of August, 1977, to cover accumulated overproduction for the months of May through August, 1977, on the captioned well. This would be in addition to the scheduled allowable for those months.

The West, Kemnitz Cisco zone of this well bore was temporarily abandoned on September 27, 1977, in the casing/tubing annulus and the scheduled allowable for that zone should be cancelled on that date.

Your consideration is appreciated.

Very truly yours,

T. Harold McLemore
