Re: Forms State #1 Sec. 25-16S-33
Lea County, New Mexico

Dear Sir:

In reply to your letter concerning the above-named well, it will be necessary for you to complete and file with this office Form C-103, which is a Commission form, on the setting and cementing of the 8-5/8" casing as performed on the State #1, before any further action can be taken toward the approval of your permanent plugging program and the release of your bond. Further, any and all tests conducted by the Frontier Drilling Company to determine the fitness of said casing should be included on the same C-103.

Yours very truly,

OIL CONSERVATION COMMISSION
