Re: Marker on State #1  
Sec. 26-16-33 P & A

Gentlemen:

An inspection has been made of the location for your State #1, and it was found to be in order with the exception of the fact that the location of the well has not been stamped on the marker, as required by Commission rules and regulations.

Please let us know when this has been done so that another inspection may be made and your final plugging report approved.

Yours very truly,

OIL CONSERVATION COMMISSION
