Re: Cities Service Angle-State #1-A
Section 32 T16S R33E

Dear Sir:

In order that the C-103 on Plugging of subject well may be finally approved, it will be necessary for you to cut one of the deadman loops and fill one deadman hole. When this work has been completed, it will then be necessary for you to contact this office and we will inspect the location again.

If at that time the location is cleaned and conforms to the Rules and Regulations of the Oil Conservation Commission, the C-103 will be approved.

It will be appreciated if you would give this matter your immediate attention.

Yours truly,

OIL CONSERVATION COMMISSION

E. J. Fischer
Engineer-District 1
