Eunice, New Mexico

Gentlemen:

This office has on file a Form C-103 reporting the results of test of casing shut-off which was performed on October 6, 1957 for the 13 3/8" casing on your Vickers State Well No. 2-I, 4-17-33, Roberts Pool. To this date no further reports have been filed.

On your Cross Well No. 1-O, Section 35, T-9-S, R-33-E the last report filed was Form C-101, and on your Leonard State Well No. 1-A, Section 12, T-20-S, R-35-E the last report was the test of casing shut-off on the 8 5/8" casing.

It is my understanding that considerable more work has been performed on some of the above named wells, and perhaps a portion was subject to prior approval of this office.

Please file at your earliest convenience all reports necessary to bring these files up to date.

Yours very truly,

OIL CONSERVATION COMMISSION

April 17, 1934

Mr. J. C. Williams, Inc.  
Box 782  
Albuquerque, New Mexico

Dear Sir:

The office has on file a Form 1-103 reporting the results of your casing shut-off which was performed on October 2, 1933 for the 12 3/4" casing on your Vickers State Well No. 2-1, 4-17-33, Hobbs, New Mexico. In this case no further reports have been filed.

In your report Well No. 1-0, Section 10, 1-17-33, 8-33-3 the last report filed was Form 1-103, and on your Vickers State Well No. 1-A, Section 12, 1-17-33, 8-33-3 the last report was the same of casing shut-off in the 8 1/2" casing.

It is my understanding that considerable work has been performed in some of the above named wells, and perhaps a portion was subject to prior approval of this office.

Please file at your earliest convenience and report necessary to this office.

Very truly yours,

Oil Conservation Commission
