Dear Mr. Anderson:

In reply to your letter of August 22, 1949, regarding producing the well you are now drilling into the common tank battery located on your State "A" Lease, it is my opinion that the Commission will not object to this arrangement.

However, you understand that this can apply to only a common lease. When filing the Form C-110, Certificate of Compliance and Authorization to Transport Oil, be sure to give the exact location of the tank battery.

Very truly yours,

OIL CONSERVATION COMMISSION
