17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was T. A. October 1, 1974 due to low production and remedial work to be done. At the present time this well is being tested for increased production from secondary recovery. If production is still low, the well should be held for tertiary recovery in the future.

We request extension for temporary abandonment if the test shows that production is still too low. If not, we will apply for allowable and put back on active status.

*Expires 10/1/76*

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
