Date

OIL CONSERVATION COMMISSION.
Santa Fe, New Mexico.

Gentlemen:

You are hereby notified that it is our intention to commence the drilling of a well to be known as
Phillips Petroleum Company **Leamex** Well No. **3** in **SW/4**

Company or Operator **Lease**
of Sec. **19**, T. **17S**, R. **33E**, N. M. P. M. **East Maljamar** Field, **Lea** County

N.

The well is **1980** feet (N.) ~~xxx~~ of the **South** line and **660** feet

(E.) ~~xxx~~ of the **West** line of **Section 19**

(Give location from section or other legal subdivision lines. Cross out wrong directions)

If state land the oil and gas lease is No. **B-2148** Assignment No. **---**

If patented land the owner is **---**

Address **---**

If government land the permittee is **---**

Address **---**

The lessee is **Phillips Petroleum Company**

Address **Bartlesville, Oklahoma**

AREA 640 ACRES
LOCATE WELL CORRECTLY

We propose to drill well with drilling equipment as follows: **Drill to approximately 1300' with Rotary tools and complete under surface casing with cable tools.**

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows: **Blanket Bond**

We propose to use the following strings of casing and to land or cement them as indicated:

Size of Hole	Size of Casing	Weight Per Foot	New or Second Hand	Depth	Landed or Cemented	Sacks Cement
11"	8 5/8"	32.0#	Second Hand	1300'	Cemented	700
7 7/8"	5 1/2"	14.0#	New	4300'	Cemented	500

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil and gas sand should occur at a depth of about **4300** feet.

Additional information:

Approved _____, 19____

except as follows:

APPROVAL CONDITIONED UPON
COMPLIANCE WITH REQUIREMENTS
OF COMMISSION

OIL CONSERVATION COMMISSION

By **Ray. Yerkrough**

Title **Chief Clerk**

Sincerely yours,

Phillips Petroleum Company

Company or Operator

By **Jack Walker**

Position **Chief Clerk**

Send communications regarding well to

Name **Mr. C. P. Dinit, Vice President**

Phillips Building

Address **Bartlesville, Oklahoma**

THE UNIVERSITY OF CHICAGO
DEPARTMENT OF CHEMISTRY
RESEARCH REPORT NO. 1000

1958

The following report was prepared by the members of the Department of Chemistry, University of Chicago, during the period from January 1, 1957, to December 31, 1957. It contains a summary of the work done in the Department during this period, and a list of the publications of the members of the Department during this period.

The work done in the Department during this period was divided into three main areas: (1) the study of the properties of the elements, (2) the study of the properties of the compounds of the elements, and (3) the study of the properties of the compounds of the elements.

The first area of work was the study of the properties of the elements. This work was done by the members of the Department who were interested in the properties of the elements. The work was done in the form of a series of papers, which were published in the Journal of the American Chemical Society. The work was done by the members of the Department who were interested in the properties of the elements.

The second area of work was the study of the properties of the compounds of the elements. This work was done by the members of the Department who were interested in the properties of the compounds of the elements. The work was done in the form of a series of papers, which were published in the Journal of the American Chemical Society. The work was done by the members of the Department who were interested in the properties of the compounds of the elements.

The third area of work was the study of the properties of the compounds of the elements. This work was done by the members of the Department who were interested in the properties of the compounds of the elements. The work was done in the form of a series of papers, which were published in the Journal of the American Chemical Society. The work was done by the members of the Department who were interested in the properties of the compounds of the elements.

The work done in the Department during this period was divided into three main areas: (1) the study of the properties of the elements, (2) the study of the properties of the compounds of the elements, and (3) the study of the properties of the compounds of the elements.

The work done in the Department during this period was divided into three main areas: (1) the study of the properties of the elements, (2) the study of the properties of the compounds of the elements, and (3) the study of the properties of the compounds of the elements.

The work done in the Department during this period was divided into three main areas: (1) the study of the properties of the elements, (2) the study of the properties of the compounds of the elements, and (3) the study of the properties of the compounds of the elements.
