RE: CAPROCK MALJAMAR UNIT #50,  
UNIT E, S19-T17S-R33E

Gentlemen:

The above referenced plugged well site has recently been inspected by an Oil Conservation Division Representative, in an attempt to release the location.

As a result of the inspection, the inspector found electrical conduit, flowlines and anchors still on location. Please clear these items from the location site so that the well can be released.

When the above has been done, please sign and return this letter to the District I office address, so that a re-inspection can be done.

If you have any questions please call our number stated above.

Sincerely,

*Chris Williams by Gary W. Wink*
