OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Horsting Oil Co. Phillips State Well No. 1 in SW NE
Company or Operator Lease
of Sec. 20, T. 17S, R. 33E, N. M. P. M. Wildest Field.
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well was drilled to a T.D. of 4765. Three hundred feet of San Andres was penetrated with no shows of oil, gas or water. It is planned to plug back to the Grayburg section and try to complete the well there. This will be done by setting a Haliburton (Hamilt on) bridge plug at 4485 in the San Andres. On top of this plug will be dumped 40' of Cal-Seal, which will bring the plug up into the Grayburg. Seven feet of lead wool will be tamped on top of the Cal-Seal to try to shut off water in the lower Grayburg. The lead wool in turn will be capped with 8' of Hydromite. The well will then be plugged back to 4430.

Approved _____, 19____
