Re: Change of Operator  
Mal Gra Unit B Well #6-M  
Section 20, T17S, R33E

Gentlemen:

We have processed a change of operator for wells in the Mal-Gra Unit B from Frostman Oil Corporation to Brothers Production Company. The above-referenced unit well is plugged but we have been unable to release the location because it has not been cleaned up to meet our regulations for release.

Since this is a unit, we presume you are to be the operator of all unit wells not previously released, so please submit a C-104 for a change of operator for this well.

According to our March 3rd inspection the following must be done to bring the location into compliance for release.

- 1) Pump jack, flow lines and other junk removed
- 2) Unit letter or quarter/quarter section should be placed on marker.

We would like very much to get this location released, so your prompt attention to this matter will be greatly appreciated.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
