Re: Mal Gra Unit B #6-M  
Sec. 20, T17S, R33E

Gentlemen:

Our records indicate your firm has recently acquired the Mal Gra Unit from Crown Central Petroleum Corporation. The above-referenced well was plugged by Crown Central; however, we were unable to release the location prior to the change of operator because the location had not been properly cleaned up.

Our March 6, 1987, inspection of the Mal Gra Unit B #6 indicated the pump jack, flow line, and miscellaneous junk were still on location. Also, the dryhole marker did not identify the well with a quarter/quarter section or unit letter designation.

When the above items have been corrected, please return a copy of this letter and we will recheck the location and release if properly cleaned up.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I

ed

The items listed above have been corrected and the location is ready to be reinspected.
