

9/23/55

N. B. Hunt.
State No 1 O 14-15-34

talked with Barton Supl. @ Midland.

Well is plugged temp - will move in pipe pulling machine at a later date. Operator will submit C-103 reporting the setting of the $13\frac{3}{8}$ " surface csg. We will approve all of the forms for this well when $13\frac{3}{8}$ " C-103 is received.

Make notation (type) on the C-103 Report of Plugging — "Well plugged temporarily awaiting the ~~removal~~ ^{salvage} of the $9\frac{5}{8}$ " intermediate string — the Commission will be advised when plugging operations are to be completed, and the manner in which they are to be performed"

C.R.

the C-105 will be submitted with the report
at the time of the next meeting
