Re: Williams Unit #1 plugging

Dear Mr. Owen:

Reference is made to the Shell Oil Company Williams Unit #1, SW/4 of the SE/4 of Sec.8 T16S R34E, NMPM, Lea County, New Mexico.

This is to advise you that the final inspection relative to plugging for abandonment has been made by Mr. M. L. Armstrong, Oil and Gas Inspector, on the subject well, and the location was found to be in excellent condition. This office now considers the plugging of this well completed, and you are at liberty to remove the cattleguard at your convenience.

We would like to express our appreciation for the manner in which the location was cleaned and levelled.

Yours very sincerely,

OIL CONSERVATION COMMISSION

Re: Williams Unit #1 plugging

Mr. J. A. Owen
Williams Unit #1 plugging
March 1935
Hobbes, New Mexico

Dear Mr. Owen:

Reference is made to the Shell Oil Company Williams Unit #1, SW 1/4 of the NW 1/4 of Sec. 8, T10S, R34E, NMP, Lea County, New Mexico.

This is to advise you that the final inspection relative to plugging for abandonment has been made by Mr. M. L. Armstrong, Oil and Gas Inspector, on the subject well, and the location was found to be in excellent condition. This office now considers the plugging of this well completed, and you are at liberty to remove the casinghead at your convenience.

We would like to express our appreciation for the manner in which the location was cleaned and leveled.

Yours very sincerely,

OIL CONSERVATION COMMISSION
