Gentlemen:

Please refer to your letter of December 27, 1955, pertaining to the condition of the location for the subject well.

This is to advise that the pits have been filled and leveled and the location is ready for final inspection. Will you please inform this office when you have completed your inspection in order that the cattleguard may be removed for use elsewhere in our operation.

I wish to take this opportunity to thank you for your consideration in this matter.

Very truly yours,

W. E. Owen  
Division Manager

Mose,  
We can now give final inspection to this well - if the location is OK, I will write a letter to Shell.
