

OIL CONSERVATION COMMISSION
HOBBS, NEW MEXICO

July 26, 1956

Cities Service Oil Co.
Box 97
Hobbs, New Mex.

Gentlemen:

Mr. M. L. Armstrong, Oil & Gas Inspector, has inspected the locations for your State AV in Unit D of Section 13-T16S-R34E, and York in Unit N of Section 12-T16S-R34E and finds that the markers do not have the locations on them, the dead men wires are not cut and the markers need to be tightened. He also found junk pipe on the location for the York.

Please notify us when these things have been done so that he may make another inspection of the locations and approval may be made of your Report of Final Plugging without further delay.

Yours very truly,

OIL CONSERVATION COMMISSION

R. F. Montgomery
Production Manager
