Gentlemen:

Mr. W. A. Gressett, Oil & Gas Inspector for the Commission, has made an inspection of the location for your Coalson No. 1 in Unit M of Section 12, T-15-S, R-35-E. Although you indicated by filling in and returning our form letter that the location was ready for inspection, he found that the pit had not been levelled, the dead men wires had not been cut and there was no location on the marker.

Please notify this office when these things have been done so that a final inspection may be made and your Report of Final Plugging approved without further delay.

Yours very truly,
