Dear Mr. Porter:

Re: Alvon Drilling & Exploration Co., Inc.
Dearduff et al Well No. 1-E, 3-16-35
Townsend Wolfcamp Pool

An inspection was made April 11, 1938 on the above named well by Mr. Engbrecht. Mr. Engbrecht found that the well has not been plugged as you directed in your letter of October 23, 1937.

The surface condition of this open hole is such that it constitutes a hazard to animal and human life.

I respectfully recommend that demand be made on the bonding company to properly plug and abandon this well.

Yours very truly,

OIL CONSERVATION COMMISSION
