Gentlemen:

March 3, 1956, a survey was made to locate your State AL Well No. 1 at a point 330 feet from the North line and 330 feet from the West lines of Section 12, T16S, R35E, NMPM, Lea County New Mexico.

A flag was set on the Southwest corner of Section 12 and the survey was started from the quarter corner common to Sections 11 and 12, chaining North on the Section line a distance of 2310 feet, thence East 330 feet to the proposed location. We retraced our survey to check the location because the Northwest corner of Section 12 was out. We checked back in to the quarter corner within 0.3 feet which is within the allowable limits of this survey.

I hereby certify that the foregoing survey was made in the field by me and that the same is true and correct to the best of my knowledge and belief.

Respectfully submitted,

John W West
