

## NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

## MISCELLANEOUS NOTICES

Submit this notice in TRIPLICATE to the District Office, Oil Conservation Commission, before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the.....

**Cities Service Oil Company** State AP Well No. **2** in **0**  
(Company or Operator) Lease (Unit)  
SW  $\frac{1}{4}$  SE  $\frac{1}{4}$  of Sec. **16**, T. **15S**, R. **36E**, NMPM., **Caudill Devonian** Pool  
(40-acre Subdivision)  
.....County.

FULL DETAILS OF PROPOSED PLAN OF WORK  
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

State AP Well No. 2 was completed December 21, 1955, in the Devonian. The well was shut in because it was producing 100% water. It is proposed to re-complete this well in the Wolfcamp. It is proposed to set a drillable bridge plug at 13,423 which is above existing perforations and reperforate in the Wolfcamp Zone. Recommended perforations are as follows: 10,282-10,284; 10,308-10,326; 10,337 to 10,343. It will be necessary to set a bridge plug at 10,700 and perforate 4 holes at 10,375 to circulate cement behind casing, then drill out cement to 10,600. It may be necessary to acidize in order to re-complete as a commercial well in the Wolfcamp. If unsuccessful, additional sections may be perforated.
