

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in TRIPLICATE to the District Office, Oil Conservation Commission, before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

Hobbs, New Mexico

January 10, 1957

(Place)

(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the.....

Cities Service Oil Co.

State AW

Well No. 3

J

(Company or Operator)

in (Unit)

NW 1/4 SE 1/4 of Sec. 35, T. 15-S, R. 36-E, Lea Pool
(40-acre Subdivision)

Dean Permo-Pennsylvanian County.

FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

State AW #3 is currently pumping 20 BO and 1 BW daily from perforations 11505-25 (20') in the Pennsylvanian formation. A 3000 gal. acid treatment in this zone on 10-30-57 failed to increase production. It is proposed to perforate additional Perm. and Wolfcamp zones. The vertical limits for the Dean-Permo Penn. Pool include the Pennsylvanian and Wolfcamp formations. Perforate the Lower Hueco 10-396-10406 (12') and selectively acidize with 3000 gallons acid. Perforate Upper Perm. 10641-75 (34') and selectively acidize with 3000 gallons acid. Swab in and test all three zones together. It is estimated that production will be increased 50 barrels of oil daily.
