Re: Filing of radio-activity and
electrical logs

Gentlemen:

Rule 1103 of the Commission Rules and Regulations as revised by Commission Order No. R-722 requires that Form C-105 be accompanied by one copy of all electrical and radio-activity logs run. Reduced scale logs are desirable.

As of this date we have not received this information on the following wells:

Yours very truly,

If no logs were run, please make a statement to that effect in the space below. Or if they have been run, and will be supplied later, please so indicate.

The logs on the above well have not appeared on the West Texas Electrical Log Service report to date, and as soon as they are available, they will be immediately submitted to your office.
