This well is to be evaluated for the possibility of a recompletion attempt. There is an Upper Wolfcamp zone from 10,348'-10,360' that was tested at 20+ BOPD in 1965 before being squeezed off to allow production from the lower Wolfcamp. It is felt that additional time is needed to evaluate this possibility and we would like to request an extension to the time that this well may be TA'd.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
