RE: STATE T #3
UNIT N, S6-T16S-R36E

Gentlemen:

The above referenced plugged well site has been inspected by an Oil Conservation Division (OCD) Field Representative, in an attempt to release the location.

As a result of this inspection, the location has still been found to not comply with the requirements of OCD Rules and Regulations.

1. Remove flowline from the location.
1. Fill and/or level pits and cellar.
2. Remove all junk from the location.

When the items above have been completed, please contact Jerry Sexton at (505) 393-6161 or sign this letter below and return it to our address stated above.

Very truly yours

JERRY SEXTON
