Lovington, New Mex.

Gentlemen:

Mr. Eric Engbrecht, Oil & Gas Inspector for the Commission, has made an inspection of the location for your Shell State No. 1 in Unit N of Section 26, T-16-S, R-36-E and has found that the pits are rough, the rock piles need levelling and the junk must be removed before approval can be made of your Report of Final Plugging.

Please advise this office when these things have been done so that a final inspection may be made.

Yours very truly,

OIL CONSERVATION COMMISSION
