Re: Our 57-10, Lea County, N.M.  
SW/4 Section 26-16S-36E.  
#1 Shell State Well.

Dear Sir:

With reference to your form letter of February 19, 1958, in which you advised that you had not received a copy of all electrical and radioactive logs, we are enclosing the following:

1. Copy of Halliburton radioactive log, covering the Velma Petroleum and Holder & Ross #1 Shell State, located in the SE/4 SW/4 of Section 26-16S-36E.

It will be noted that the above log was run to a depth of 5188 feet, which was the total depth of the well. As you know from our previous discussions, Velma Petroleum Corporation was the operator of this test, and this is the only copy of any log we have ever received. I assume this will satisfy the request in your letter of February 19; however, if it does not, please advise.

Very truly yours,

HOLDER & ROSS

W. G. Ross
