FULL DETAILS OF PROPOSED PLAN OF WORK  
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

State AE Well No. 3, formerly designated as State AH Well No. 1, was drilled to the Abo in 1953. There were no commercial shows in the Abo and the well was plugged and abandoned without attempting to complete in the Paddock section. Since this well was plugged and abandoned, State AE Wells No. 4, 5, & 6 have been completed in the Paddock section.

It is proposed to re-enter Well No. 3, drill out to 6275', run 5½" casing to 6067' and complete in the same manner as the other wells on the lease. It is believed that this well will be completed as a top allowable well after acidizing.
