17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

An application to plug and abandon has been approved but after further study there is a probability we may want to whipstock and recomplete. At the present time it is proposed to set a cast iron retainer at 4060' and squeeze with an ample volume of cement (500) sacks or more if necessary) to get a good squeeze job, then cut off and recover 5½' casing from 3760'. No further plugs will be installed until decision is made concerning whipstocking the hole.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
