THE
JOURNAL OF
THE
ROYAL ANTHROPOLOGICAL INSTITUTE

Volume 100, Part 1, 2000
The Journal of the Royal Anthropological Institute is a peer-reviewed journal of research in human evolution, primatology, and human biology. It is published quarterly by the Royal Anthropological Society. The journal covers a wide range of topics, including the evolution of the human species, the development of the human brain, and the social and cultural evolution of humans. It is a leading journal in the field of human evolution and is read by researchers and students alike.

The journal is published by the Royal Anthropological Society, which is a charitable organization that promotes the study of human evolution and human biology. The society was founded in 1871 and has a long history of publishing research in the field. The journal is one of the society's main publications and is highly regarded in the scientific community.

The journal is published quarterly, with each issue containing several articles. The articles are written by leading experts in the field and are subject to rigorous peer review. The journal is available in both print and online formats.

The journal is a key resource for researchers and students in the field of human evolution and human biology. It provides a platform for the publication of new research and for the discussion of important issues in the field.
