Re: REQUEST FOR TA STATUS

Gentlemen:

We are returning the C-103's submitted to this office requesting TA status to hold these wells for future use in the Denton North Wolfcamp Unit WF.

Our TA rule (Rule 203) was revised in March 1991 and according to the rule as it now stands you must set a CIBP and test the casing in each well in order to get a TA Permit. A copy of this rule is enclosed.

Please resubmit these C-103's outlining your plan for setting BP and testing the wells according to the guidelines in Rule 203.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I

ed

Encl.

P.S. It appears the Tr. 14 #2 well has a cmt plug from 9222--8719',  
However, you will still need to pressure test it.
