The elevation of the derrick floor above sea level is 3022 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is proposed to set a 7" bridge plug above the perforations using wire line & dump 2 sk of cement on top of plug & temporarily abandon. Plan to salvage tubing & flowline.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
