Attention Mr. G. E. Tate

Re: Proposed Plug Back
T. D. Pope Well No. 21, Unit A
Section 35, T-14-S, R-37-E
Lea County, New Mexico

Dear Mr. Tate:

Form C-101 covering the proposed procedure for plugging the subject well back to the Pennsylvanian formation will be held without approval until we hear from you regarding the possibility of revising the procedure to accomplish a permanent abandonment of the Devonian. Unless a plug is set no more than 100 feet above the Devonian perforations, at this time, it will have to be done upon permanent abandonment of the wellbore. This would, of course, necessitate drilling out the plug as it is proposed on Form C-101.

Please advise as to your decision in this regard. In the event that you choose to revise your procedure, please submit a revised Form C-101.

Yours very truly,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District 1
