17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Production from Devonian perms 11902' to 12080' has declined to 120 BOPD + 12 BWPD. In an attempt to increase oil production we propose to add Devonian perms w/1 1/2" JS at these depths: 11675; 11701, 11707, 11716, 11718, 11731, 11750, 11752, 11754, 11771, 11788, 11790, 11812, 11814, 11816, 11834, 11836, 11838, 11844 & 11846. Treat these perms w/5000 gal of 15% HCl acid & swab test. If this does not result in full allowable well, propose to treat existing Devonian perms 11902' to 12080' w/5000 gal 15% HCl acid.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
