OIL CONSERVATION COMMISSION  
SANTA FE, NEW MEXICO

Roswell, New Mexico  
(Place)

February 1, 1963  
(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the

Atlantic Refining Company State of T Well No. 1 in Lease (Unit)  
SW 1/4 SW 1/4 of Sec. 2, T. 15-S, R. 37-E, NMPM., Denton-Devonian Pool  
Lee County.

**FULL DETAILS OF PROPOSED PLAN OF WORK**  
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

This well is producing from perforations 12,422 to 12,472' (GR). The produced water percentage has increased to where the well will no longer flow. To prolong its flow life, we propose to set a wireline cast iron bridge plug at 12,350 and cap w/2 sz of cement. Add Devonian perforations 11,902-928, 11,963-984, 12,017-030 and 12,060-080 w/2 JSFF. These perfs will then be treated w/10,000 gallons of 15% LSTNE acid in two stages.

By.....  
Position..... District Drilling Supervisor  
Send Communications regarding well to:

Name..... The Atlantic Refining Company  
Address..... P.O. Box 1978, Roswell, New Mexico

The following table shows the results of the survey conducted in the first quarter of 2023. The data indicates a significant increase in the number of respondents who reported feeling satisfied with their current living conditions, particularly in the areas of housing and community support. This trend is consistent with the findings of the previous survey conducted in the same period last year.

Category	Q1 2023	Q1 2022
Housing Satisfaction	78%	65%
Community Support	82%	70%
Overall Well-being	75%	68%

The survey also revealed that respondents are increasingly concerned about the impact of climate change on their daily lives. This concern is reflected in the growing demand for sustainable living practices and community initiatives aimed at reducing carbon footprints. The data suggests that while there is a positive outlook on living conditions, there is also a growing awareness of the challenges posed by environmental issues.
