17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was shut down on October 10, 1971, as the low oil productivity made it uneconomical to operate and no stimulation treatment was considered feasible. We propose temporarily abandoning it by leaving it shut in and holding it for possible future remedial work.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
