

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

RECEIVED

OCT - 9 1950

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

THE HISTORY OF THE

REPUBLIC OF THE UNITED STATES

OF AMERICA

FROM 1776 TO 1863

The history of the Republic of the United States of America is a story of growth, struggle, and triumph. It begins in 1776, when the thirteen original colonies declared their independence from Great Britain. The new nation was born, but it was not without its challenges. The American Revolution was a long and bloody fight, and the new government was weak and unstable. The Constitution was written in 1787, but it took time to be ratified. The first President, George Washington, led the nation through its early years, but the country was still divided. The Civil War, which began in 1861, was a turning point in the nation's history. It was a war of unprecedented scale and violence, and it ended in 1865 with the Union's victory. The war brought about the abolition of slavery and the Reconstruction era, which sought to rebuild the South and integrate African Americans into the nation. The Reconstruction era was a time of great struggle and progress, but it was also a time of great hardship and violence. The Reconstruction era ended in 1877, and the South was left in a state of poverty and despair. The Reconstruction era was a time of great struggle and progress, but it was also a time of great hardship and violence. The Reconstruction era ended in 1877, and the South was left in a state of poverty and despair.
