Dear Mr. Sexton:

As per your letters of request dated February 6, 1989, please find enclosed original form C-104's with the required copies concerning the above referenced wells. Please note that Marathon Oil Company records (attachment) show that an exemption to the no-flare rule was requested in June 1987 for 30 days, due to a fire at the Davis Gas Processing Plant (formerly Tipperary Resources Corporation) to facilitate repairs to the Plant. Casinghead Gas sales resumed about August 1, 1987 to the original gas transporter hence no changes were shown on form C-104.

If you have any questions you may direct them to Carl A. Bagwell at 682-1626.

Yours truly,

J. R. Jenkins
Hobbs Production Superintendent
