

NEW MEXICO OIL CONSERVATION COMMISSION
Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in TRIPLICATE to the District Office, Oil Conservation Commission, within 10 days after the work specified is completed. It should be signed and filed as a report on Beginning Drilling Operations, Results of test of casing shut-off, result of plugging of well, result of well repair, and other important operations, even though the work was witnessed by an agent of the Commission. See additional instructions in the Rules and Regulations of the Commission.

(Place)

Following is a report on the work done and the results obtained under the heading noted above at the

Gulf Oil Corporation

(Company or Operator)

L. R. Chamberlain

(Lease)

Parker Drilling Company

(Contractor)

Well No. 4 in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 14,T. 15S, R. 37E, NMPM., Denton-Wolfcamp Pool, Lea County.The Dates of this work were as follows: April 3, 1952

Notice of intention to do the work (~~was~~) (was not) submitted on Form C-102 on _____, 19_____,
(Cross out incorrect words)

and approval of the proposed plan (~~was~~) (was not) obtained.

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

The subject well had numerous deviation tests made while drilling and since the hole from 9100 feet down averaged more than 5 degrees from the vertical, a directional survey was run at 11,196 feet. The bottom of the hole at that time was 121.40 feet in a direction S 67 degrees 48 minutes W from the surface location.

The well was drilled to a total depth of 13,018 feet and was then plugged back to 9110 feet. From the original directional survey, the deviation of the hole at the plugged back depth was calculated to be 56.25 feet from the surface location in a direction N 30 degrees E.

The directional survey referred to above is attached and the point representing a depth of 9500 feet is marked on the plan. This is being submitted to show that the bottom of this well is on the lease where it was drilled, as required by Rule III (a) Deviation Tests of the New Mexico Oil Conservation Commission Rules and Regulations.
