McALESTER BUILDING

MAGNOLIA, ARKANSAS

September 19, 1950

Mr. O. T. Yarbrough,
Oil and Gas Inspector
New Mexico Oil and Gas Conservation Commission
P. O. Box 106,
Hobbs, New Mexico

Dear Sir:

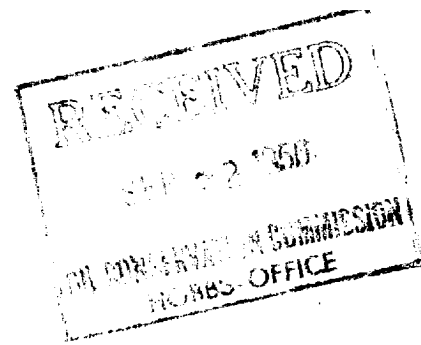

We enclose herewith Form 1-101, Notice of Intention to Drill our proposed A-1 Well, located in the NW 1/4 of the NE 1/4 of Section 14, Township 15 South, Range 3 East, Benton Field Area, Lea County, New Mexico. This proposed well will be a Devonian and base with a projected depth of approximately 11,600'.

We also enclose required well record forms for two additional wells as listed herein. You will note in several instances that these forms should have been filed some time ago, but the fact that they were not filed within the specified time interval is due wholly to an oversight on my part. I shall make every effort to see that such does not occur in the future. I understand, however, that similar oversights on the part of the New Mexico Department regarding progress reports on these wells and that you had granted approval to proceed with the work as outlined.

Proposed A-1 Well, Test
NE 1/4 of Section 14 - T 15 S - R 3 E
Lea County, New Mexico

1. Form 1-101 - Notice of Beginning Drilling Operations
2. Form 1-102 - Notice of Intention to Test Casing Shut-off (1-3/4" casing string).
3. Form 1-102 - Report on Results of Test of Casing Shut-off (1-3/4" casing string).
4. Form 1-102 - Report on Results of Test of Casing Shut-off (1-3/4" casing string) and Redrilling of 1-1/2" casing string to completion.
5. Form 1-102 - Notice of Intention to Redrill 1-1/2" casing string to completion.

Additional well record forms will be filed for this well as soon as completion data is available.

W. L. Denton A-2 (Holbrook test)
2, 1/2 of Section 21 - T 15 N - R 37
Deming, Lea County, New Mexico

1. Form 1-101 Report on Logging Drilling Operations
