Gentlemen:

Following is a Notice of Intention to do certain work as described below at the.....

(Company or Operator) Monteith "CW" Well No. 1 in Undesignated Pool
Tide Water Associated Oil Company, R. NMPM.
(40-acre Subdivision) SW NW 20 16-S 37-E County. Undesignated

Lee

FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

On May 8, 1953, a string of 8-5/8" OD. casing was set at 5006' and cemented with 2350 sacks of gel cement, 130 sacks of perlite and with 250 sacks of common cement; the cement circulated. While going in the hole to test the casing and drill the plug, an obstruction was encountered at 2987' from the surface. After rotation, the bit dropped free before encountering a soft material. The bit drilled in the soft material from 2987' to 3037'. Red shale and cement was observed in the cuttings that were returned to the surface. The bit was pulled out of the hole and an electrical survey (with a collar locator) was run; open hole formation was logged from 2987'-3037', indicating the 8-5/8" casing was parted at 2987'. An impression block was run and confirmed the above. All attempts to align and repair the casing have failed. We, now, propose to abandon the well.

Notice of Intention to
Plug and Abandon - Tide Water #1 Monticeth

The hole will be loaded with mud laden fluid and a cement plug laid at the surface in the top of the 8-5/8" OD. casing. A 4" OD. steel marker extending 4" above the mean ground level will be cemented at the surface.
