17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

On October 30, 1974, the New Mexico Oil Conservation Commission approved temporary abandonment of this well until October 1, 1975. The well was temporarily abandoned since production had declined to the point of being unprofitable to operate. Present plans are to work over this well in the second quarter of 1976 to restore well to producing status. Skelly Oil Company respectfully requests that a one year extension to temporarily abandon this well be granted as per New Mexico Oil Conservation Commission Order No. R-5019.
