Place

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Tide Water Associated Oil Co. State "P" Well No. 1 in SW/4 of SW/4
Company or Operator Lease
of Sec. 32, T. 16S, R. 37E, N. M. P. M., Levington Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

We expect to set 8-5/8" OD casing at approximately 2200' and cement with 300 sacks of regular cement. 1000# pump pressure will be pumped on casing before and after drilling plug and will be allowed to stand for 30 minutes to check pressure decline. We expect to do this work Sept. 29, 1945.

Approved SEP 28 1945, 19____
except as follows:

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for a systematic approach to data collection and the importance of using reliable sources of information.

3. The third part of the document discusses the challenges and limitations of the current data collection and analysis process. It identifies several key areas where improvements are needed, such as increasing the accuracy of data collection and enhancing the efficiency of the analysis process.

4. The fourth part of the document provides a detailed overview of the proposed improvements to the data collection and analysis process. It outlines specific steps and strategies that will be implemented to address the identified challenges and limitations.

5. The fifth part of the document discusses the expected benefits and outcomes of the proposed improvements. It highlights how these changes will lead to more accurate and reliable data, which will in turn improve the organization's decision-making process.

6. The sixth part of the document provides a summary of the key findings and conclusions of the study. It reiterates the importance of maintaining accurate records and the need for a systematic approach to data collection and analysis.

7. The seventh part of the document discusses the implications of the study for future research and practice. It suggests several areas for further investigation and provides recommendations for how the findings can be applied in real-world settings.

8. The eighth part of the document provides a final conclusion and a list of references. It summarizes the main points of the document and provides a list of the sources used in the research. The references include a mix of academic journals, books, and online resources.
