Re: Getty State P #5-M, Sec 32, T16S, R37E

Dear Mr. Newport:

As per the conversation this date, we request that you set up a meeting regarding the re-plugging of the above referenced well as specified by Division Order R-9431.

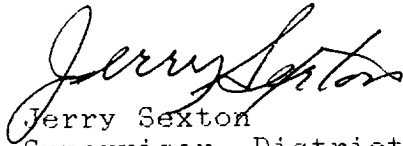

It was noted that the pressures would be monitored over a period of time to confirm the condition of the wellbore.

The information submitted shows a sharp increase in the pressure.

We request that you prepare and bring to the meeting a procedure to take care of the problems causing the pressure increase. We will go over your presentation and make a determination on the method or methods to be used to correct the problems.

Very truly yours

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
