

OIL CONSERVATION COMMISSION

HOBBS, NEW MEXICO

Jan. 29, 1963

**Lyda Hunt-Herbert Trusts
Drawer 1850
Midland, Texas**

Attention: Mr. E. V. Barton

Gentlemen:

Although the plugging and abandoning of your R. W. Moreman No. 1 located in Unit G of Section 8, T-15-S, R-38-E does not meet the recommendations for plugging in this area, this office will approve the Form C-103 covering this plugging and abandoning. However, before your Form C-103 will be approved, it will be necessary that you complete the plugging and abandoning of the well.

Therefore, please complete the work at your earliest convenience. If you recover any of your intermediate pipe, it will then be necessary to set additional plugs in the hole; but if you do not attempt to recover any pipe from the well, then a ten sack cap with suitable marker will suffice on the plugging.

Yours very truly,

OIL CONSERVATION COMMISSION

**Joe D. Ramey
Supervisor, District 1**

Lyda Hunt-Harbert Trust
Box 1350
Midland, Texas

Attention: Mr. E. W. Patton

Gentlemen:

Although the plugging and abandoning of your No. 1 located in Unit G of Section 8, T-14-S, R-36-E does not meet the recommendations for plugging in this area, this office will approve the Form C-103 covering this plugging and abandoning. However, before your Form C-103 will be approved, it will be necessary that you complete the plugging and abandoning of the well.

Therefore, please complete the work at your earliest convenience. If you recover any of your intermediate pipe, it will then be necessary to set additional plugs in the hole; but if you do not attempt to recover any pipe from the well, then a tan sack cap with suitable marker will suffice on the plugging.

Yours very truly,

OIL CONSERVATION COMMISSION

Lee D. Ramsey
