17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

In order to open all possible productive zones to water injection, it is proposed to deepen this well by the following procedure:

Clean out and drill to new T.D. of 9085'. Run GR/N and caliper log from T.D. to 3100'. Run 2 3/4" OD cement lined tubing with packer. Set packer at 3550'. Also set 540' of 2" fiberglass tailpipe at 9070' if needed. Place well on injection.

18. I hereby certify that the foregoing is true and correct
