Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

It is proposed by Conoco to recomplete this well to the Queens and/or Seven Rivers as follows:

1. Permanently abandon the San Andres Grayburg by capping the RBP @ 3600' with 25 sx of cement or by removing it and setting a CIBP @ 3600' capped w/25 sx of cement.
2. Perforate and test the Queens formation. Stimulate Queens and evaluate.
3. Isolate the Queens to test Seven Rivers or permanently abandon Queens, if non-commercial.
4. Perforate and test Seven Rivers formation. Stimulate Seven Rivers and evaluate.
5. Downhole commingle Queens and Seven Rivers and place well on production, if both zones appear commercial, or isolate and produce whichever zone is commercial.
6. If neither zone is commercial, make application for P&A.

14 I hereby certify that the foregoing is true and correct

Signed

*Reese Wilkes*
