13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The chart for this test was submitted with a Sundry dated 9/11/02 under the Type of Action: "Request/Renew TA Status". This Sundry is to correct the type of work as a tubing leak repair. The chart was from the test run 7/30/02. This chart came in with several TA renewal charts and was inadvertently filed as the same. This well is actively injecting at this time.

14. I hereby certify that the foregoing is true and correct
