(Other) Convert to Water Injection

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In connection with the MCA Unit Waterflood it is proposed to convert the subject well to water injection using the following procedure:

1. Run open hole log to TD of 4117.
2. Run 4 1/2" casing to TD of 4117' or to 3760' and cement to approximately 2900'.
3. Perforate selected intervals of casing set to TD and fracture.
4. Clean out to TD.
5. Connect up well for injection down casing.

The USGS office in Roswell has granted approval for this conversion. Your approval to the above work is requested.

18. I hereby certify that the foregoing is true and correct
