### DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

On January 23, 1949, we ran a Dowell Caliper Survey of this well to find a point to set a packer at a point between 3870' and 3890' to separate the injected gas for the 6th zone from the zones below. Copies of survey are enclosed.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
