Artesia, New Mexico, Dec. 13, 1948

Wm. Mitchell B
Well No. _I.P.36_ is located _25_ ft. from {N}/{S} line and _2590_ ~~2950~~ ft. from {E}/{W} line of sec. _20_

SE¼ SW¼ Sec. 20 _17S_ _32E_ _N M P M_
(¼ Sec. and Sec. No.) (Twp.) (Range) (Meridian)

Maljamar _Lea_ _New Mexico_
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

After having first discussed the matter with Mr. Frost, and securing
his consent thereto, we will change the plan originally specified for
drilling this well, in so far as the size of the casing that was to
be run is concerned. We will set 5½" OD casing in this well at approximately
ly 3650' instead of 7" OD casing.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company _Buffalo Oil Company_
